

18" BUTYL TRANSITION FLASHING

FULL COVERAGE FOR CORNERS.

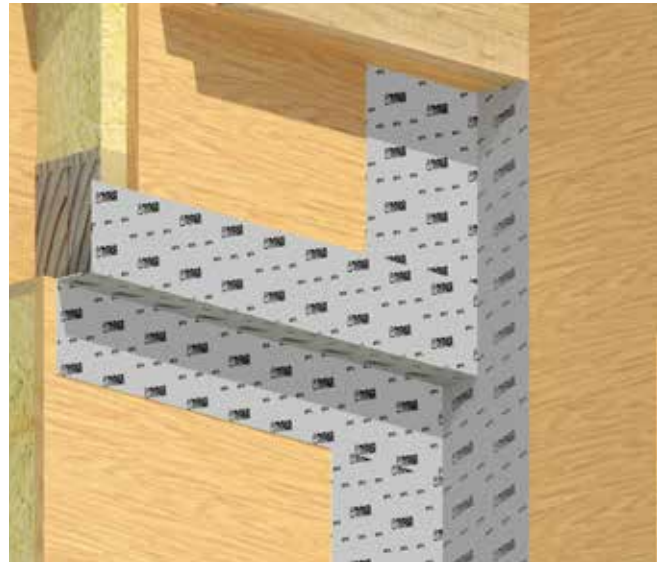

TYPAR 4", 6", 9", and 12" Butyl Flashing definitely delivers on the basics. But now, we're excited to introduce 18" TYPAR Butyl Transition Flashing to our flashing portfolio. Wide-width TYPAR Butyl is ideal for protecting those pesky inside and outside corners, where cladding installation has a greater chance of impacting the weather-resistant barrier. 18" TYPAR Butyl is also a great choice for protecting the side wall, behind the ledger board where there is a transition from wall to deck. Compared to rubberized asphalt-based flashings, TYPAR Butyl Flashing simply brings more to the job. And now, to your transitions.

LEADING FEATURES AND BENEFITS:

- Contains no VOCs and won't off-gas
- Won't interact with caulks and sealants
- Split poly backing for easy installation
- Suitable for installation down to 30° F (-1° C)
- Thermally stable up to 180° F (82° C)
- Remains pliable for a more durable seal
- Lifetime limited warranty**

INSTALL THE SYSTEM. GET A LIFETIME LIMITED WARRANTY.

TYPAR Butyl Flashing, building wraps and construction tape make up the complete TYPAR[®] Weather Protection System. It's the only lineup with superior air and water holdout, unrivalled tear strength, optimal breathability, and this: lifetime limited warranty coverage.*
